Postal Address: P.O Box 30197 (00100) Nairobi

Email Address: diphdigha@yahoo.co.uk

Campaign pledge

“There is a big dumpsite in the constituency and this is a vice to the community as it is a great health concern.”

In respect to this I have already set up a health camp for women and children that will take place in all the wards for a period of 3 years.

For the youth I have a Diphrose Matengo tournament coming up which will run for 3 months and will continually be held in different wards in my constituency. This will empower the youth and help keep them off negative vices that affect them.

I intend to see to it that the Community Development Fund (CDF) is allocated for bursaries to ensure that bright but poor students are not locked out of schools for lack of fees. We have an arrangement with a company that brings in university students to help us equip the youth that are skilled but don't have education with skills of furniture making and textile design and later sell their products giving them income.

There is a mentorship program for young women in conjunction with international companies which will run in high schools in the constituency to educate them on self empowerment and issues that affect them as young women.

I am also working on insecurity which is of great concern to the constituents.
