### *Campaign pledge*

*“ Being born-again, I have always known I am able to serve the Kasarani people diligently.*

*In 2006 June I made up my mind to run in that constituency. Men have led the Kasarani people for long and now the constituents yearn for change. I offer to be that change. I want to bring into focus the issues of women and the youth. They have been marginalized and I think it is time to raise their voices. Kasarani is so poor. It is doted by slums all over. The people need proper housing. They live only for a day. I would like to be the person to provide this change.”*

*When elected, I will;*

- *Empower women at grassroot*
- *Empower and enlighten the youth*
- *Work on development issues like health facilities and education improvement*
- *Improve on the security*
